

Presentation 2 - Erin Seddon

Home/Family Activities

- Online classes have some advantages
- Parents appreciate being more involved, even if they're making dinner nearby and listening in on the PREP class
- Home Activities –
 - Take advantage of the Family at Home activities at the end of each lesson (Christ Our Life & Called to Faith)
 - We typically suggest 1 or 2 Home-Activities each week
 - Make use of media
- Movies are great, but if they take up the majority of your class time, it may be helpful to have the students and possibly their family watch the video together as a family activity. You can also provide discussion questions.
- Find the balance between what's doable for families vs adding stress to their lives
